Hi [REDACTED]

I spoke with the reporter earlier today. [REDACTED]

[REDACTED] I think she's already spoken with a couple of experts who have confirmed our view that there is no safety issue.

I'm unclear whether FoE have sent it to anyone else.

Regards

Lorraine

Hi Lorraine,

Any word on when this is coming out? We have a bunch of quotes we can send out once it breaks.

Cheers

Hi all

Just a heads up this has come our way and we are developing a response. Given I haven't been asked to keep these results confidential I feel ok sharing them. I assume if the story grows legs you may want to gather an expert response.

We have checked and the reporter has advised the date is incorrect in the title of the PowerPoint.

We also asked if the results had been published in a journal or peer reviewed and were advised that they hadn't been. However please note that advice came from the reporter.

FSANZ is currently developing a response to the questions below.
