Subject: SUBMISSION for Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products
Importance: High
Follow Up Flag: Follow up
Flag Status: Blue

Dear Sir / Madam,

SUBMISSION FOR Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products

My family (Husband, 4yo and 5yo) and I have been consuming raw milk for the past 2 ½ years, and have been thriving on it. We consume 6 – 8 litres of raw milk a week, and would appreciate the regular and available supply of certified organic raw milk.

I believe that the advice and recommendations of experts such as the people at Nourished Magazine and their various resources, need to be included in this important decision. I would love to see certified organic raw milk regulated and available to the public so that they can have the choice to consume pure natural milk as nature intended and not the synthetic denatured “milk” available on supermarket shelves. I hope this will help to make raw milk readily available to the public.

Love and best wishes
Sandra O'Malley
