RE: Submission re Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

I am very much in favour of legalising the sale of raw milk and raw milk products. Having at times stayed on a farm, milking a cow, and drinking fresh cow milk I can appreciate it's wholesome goodness. The same applies to butter and cheese made from fresh cow's milk.

The main concern here is a question of quality control and maintaining the freshness from the farm to the consumer table.

I would be glad to participate in any discussion that takes place on this topic.

Kindest regards
