Attention of Ms Christina Belperio

Dear Christina,

I have been consuming during 65 years on 4 continents raw milk & raw cheese & other raw dairies including: 20 years in Europe - 25 years in Africa - 15 years in South East Asia - now 5 years in Australia and retired.

YET AT 65 I NEVER HAD THE NEED TO VISIT A DENTIST ONCE IN MY LIFE & I HAVE NOT SEEN A DOCTOR FOR THE PAST 25 YEARS & I NEVER GET WINTER FLUES & I NEVER NEED ANY DRUG THANKS TO REAL-LIVE FOOD INCLUDING RAW MILK.

My 65 years experience around the world and living in 4 very different continents enable me to strongly claim that both NORTH-AMERICA and AUSTRALIA are in general WELL FED but BADLY NOURISHED on a nutritional-density aspect and in the wrong concerning raw milk.

For instance a 1940 renown international survey of the East-Coast of Australia found then that dentistry condition here was the worst among the white race, world-wide that is.

Today Australia as a country is having the worst population dentistry condition among the OECD countries to the extent that Medicare can't tackle this huge Health problem.

In 2008 Australians are massively demineralised and nutrients-poor and subject to ever invading chronic diseases starting from very young age; which is new.

Your Department Christina, would have its fair share of responsibilities in this sorry state of HEALTH affairs.

Australia - few years back you will recall - refused to accommodate within its borders any American milk tainted with the deadly milk Industry' PCBs.

Australia today has no-way but to refuse to continue accommodating its domestic production to be tainted by the local milk Industry oligarchy.

Australia as a very young country needs to catch up with some old culture continents ways for the sake of Health.

Raw milk is a very effective start for your Department Christina, to finally emerge from its blind-

folding.

I therefore plead with you and your Department for saving my/our freedom of choice and my/our rights in a multicultural country - as Australia is - through the availability of raw milk & associated products nation-wide.

I thank you very much Dear Christina for your attention to this urgent Health matter.

For the attention of Ms Christina Belperio

Dear Christina,

I made an error in my submission below. It's not PCB but **BGH** instead! You will recall that bovine growth hormones were banned in Australia.

Cheers.

Max Pouzou
