Subject: raw milk products

Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

I am a consumer who would like the freedom to legally buy and consume raw milk products. I have done research and am convinced that under good hygienic practices, raw milk products are superior in both nutrition and taste and may be less likely to trigger allergies in my family. Please allow us, the discerning public, the right to choose for ourselves milk products that are less processed and heat damaged.

Thankyou
