**Subject:** Proposal P1007 Primary Production & Processing Requirements for Raw Milk Products (Australia only)  
**Follow Up Flag:** Follow up  
**Flag Status:** Red

I am a raw milk producer in the US. I have many customers that would be devastated if I was to be put out of business by our govt. In my state it is illegal to sell raw milk. Because of the laws of my state I have to go around the laws to provide my customers the nutritious product they so desire. I would much rather have a good raw milk law such as the one just approved in California so that more people would have the CHOICE of what they want to consume. More and more people are being educated on the benefits of raw milk from GRASS FED, PASTURED not confined dairy cows. Please be a leader in the world and show the US govt. how to give your people a choice in how they want to control their health. Don't be influenced by the DAIRY INDUSTRY which only is looking out for their interests and not that of your citizens. Let the people choose!
