Re: Proposal P1007 Primary Production & Processing Requirements for Raw
Milk Products (Australia only)

25 Nile St

To Whom It May Concern:

I am a mother of three children and I am very concerned about the milk and milk products available in Australia today. I believe that processes through which we put our milk makes it nutritionally inadequate at best and harmful at worst. I, as a consumer, would like to be given a choice about the type of product I buy and believe that for the health of our children that raw milk needs to become freely available in Australia.

Your sincerely
