**Subject:** Submission: For Proposal P1007 - Primary Production and Processing Requirements for Raw Milk.  
**Follow Up Flag:** Follow up  
**Flag Status:** Blue

To whom it may concern,

The crime is not the consumption of raw milk, but rather the absurd banning of it. As a long-time raw milk consumer (especially beneficial in my childhood), I request that my government act to implement the following:

- \* Easy access to clean, unprocessed milk from local dairies with healthy cattle that are grass-fed only.
- \* FSANZ to reassess outdated science and non-science which condemns raw milk as a carrier of pathogens and consider science based recommendations for consumption of raw milk.
- \* Certification of raw milk which ensures its cleanliness and its healthful properties remain intact.
- \* Regulations which require raw milk and raw cheeses to be traded ONLY via localised, cottage industry.

Regards,
