Dear Sir/Madam,

I would like to put in a submission in favour of raw milk for the Proposal P1007 : Primary Production & Processing Requirements for Raw Milk Products.

I am in favour of safely produced, natural raw milk. I grew up on a diet that included raw milk and cream which I enjoyed as a child. Now however because we live in a regional city I am unable to offer the same to my own children. I have been learning of the health benefits of raw milk products and would appreciate being able to offer the same to my children. My children suffer from eczema and raw milk is meant to be beneficial for this condition. I understand that some states in USA and some countries in Europe are allowed raw milk products. Would you also please put me on your FSANZ interested parties register.  
Thanking you.

Yours sincerely,

Mrs Bridget Milson, mother, Registered Nurse, and business owner.
