I am a mother of two, working, middle class, and I would like to have the right to choose what sort of milk I and my family drinks. I would like to have access to raw milk produced in certified dairies, and other dairy products made by producers who follow certified standards for raw milk set by the government. I believe that raw milk is a healthier option for myself and my children. I also believe that it should be up to the individual to choose what they eat. People choose to eat raw fish, raw oysters, raw beef and raw eggs. Their choices are not circumscribed by the government. I would like to have my choices equally respected.

Thankyou
