Hello,  
this is a note to say that My wife Maria and I are very fond users of Raw milk products. We consume 7ltrs of milk each week and have been doing this for around 3 years now.  
We have had great health benefits overall. With less cravings for processed food and sweets I have had virtually no cold sores where I used to get them very very regularly.  
We are very greatfull we can purchase this product for our diets and believe strongly that it should be available for all in the future who wish make the choice to have raw milk.  
thankyou
