

Submission.

Proposed P1007 Primary Production & Processing  
Requirements for Raw Milk Products.

I am in favour of safely produced, natural milk in Australia. I am now 70 yrs of age & have hand milked cows since the age of 6 yrs. My family have always had milk straight from the cow & I have made butter from the cream for many years & feel my family are much better in health as a result.

Raw milk drinkers need certification to protect them, & to know their milk is coming from animals that are farmed in a healthy manner.
