Dear Food Standards

I am writing to encourage a review of current legislation that prohibits the sale of raw milk and dairy products for human consumption.

Raw dairy products have long been found a safe and highly nutritious source of sustenance.

As a consumer who is informed on the benefits of raw milk and dairy , I strongly urge you to consider allowing people the freedom to choose.

There is much literature on the subject of raw milk and I can recommend the following books -

'Nutrition & Physical Degeneration' - Weston A Price  
'Nourishing Tradition's - Sally Fallon  
'The Untold story of Milk' - Ron Schmid

Kind Regards
