**Importance:** High

Maybe, just maybe, industry is getting up a head of NBT steam!

I was going to nominate you – is that OK?

Hi [REDACTED] trust you are keeping well.

I know [REDACTED] and I are meeting with you next week, however the reason for my contact is that as a member of Grain Trade Australia I have been nominated to represent the organisation on a global IGTC working group on NBT's. During a conference call last night we have been asked to find out who the lead contact is within each of our countries Regulators on the topic of NBT's.

Given our work together I thought you may be the best person to ask who this is within FSANZ?

Have a good weekend.

Regards

[REDACTED]
