Hi Lorraine,

Thanks for your emails and updates. We will hold fire until we hear from you re letter and website statement. Our line will be to support FSANZ and the evidence.

Regards,
[REDACTED]

Hi [REDACTED]

Just to confirm we are now preparing a letter to FoE and a statement on our website. Once the statement is published I'll respond on the blog below.

Regards

Lorraine

Hi Lorraine,

This is the article that I read yesterday in the conversation <http://theconversation.com/nanoparticles-in-baby-formula-should-parents-be-worried-59246>. The concluding paragraph says:

Luckily, current research suggests hydroxyapatite nanoparticles in formula are most likely safe, and arguably, even beneficial. But given how high the stakes are, safety here should not, and indeed cannot, be take for granted.

For this reason I didn't worry too much about the story but this morning I got this <http://www.mouthsofmums.com.au/risky-nanoparticles-found-in-baby-formula-should-we-be-concerned/> which may need to be rebutted as it appears the story is getting a bit of negative momentum for FSANZ and the infant formula industry.

Are you preparing a statement for the media? And should we?

Regards,

From: "Haase, Lorraine"
