**Subject:** Submission on Rec 34: Review required labelling of irradiated foods

As a shopper I will vote with my feet if irradiated food labelling is removed or in any way weakened. I want to know what I am buying and have the right to choose the food I eat. If this labelling is removed or weakened I will stop buying any but fully organic products. At the moment I balance my budget by buying some mainstream but that will stop if I cant be sure what I am buying
