Subject: Submission - A1193 - Irradiation as a photosanitary measure for all fresh fruit and vegetables

Hi there,

I am writing to submit a notice of disapproval of the irradiation of fresh fruit and vegetables under A1193.

I completely disagree with the proposal of this practice.

I am just one of many consumers of fresh fruit and vegetables and have no desire to be ingesting food that has been altered and microbiologically butchered beyond a definition of fresh, just for the sake of 'prolonging it's shelf life' and to 'kill fruit flies'. To do such a thing to the food we eat is only lazy and ignorant.

Just because we can't see something, doesn't mean it is harmless.

Do not permit my food to be irradiated.
