Subject: Application: A1193 - Irradiation as a phytosanitary measure for all fruits and vegetables

To Whom It May Concern,

I am writing in regard to the Application: 30 October 2020 [140–20] A1193 – Irradiation as a phytosanitary measure for all fruits and vegetables.

I am an Australian who wishes to voice my strong OBJECTION to this application. Studies have found that irradiation of food may affect its nutritional value and it is for this reason that I eat only organic food and never irradiate it in a microwave oven. This is because I DO NOT wish to eat irradiated dead food.

I DO NOT CONSENT to my food being irradiated. At the very least, consumers need to be given a choice of whether or not they purchase irradiated foods – there needs to be a wide selection of non-irradiated foods and irradiated foods need to be CLEARLY MARKED.

Thank you for your consideration.

Yours sincerely and without prejudice
