> 'Submission on A1193 Irradiation of all fresh fruit and vegetables'.

> I strongly object to any irradiation of any foods produced in Australia or imported to Australia or exported from Australia.

> On health grounds this is unacceptable. Can you provide peer-reviewed evidence that irradiated foods do not affect health?

> On environmental grounds this is unacceptable, contributing to more polluting and poisoning of our already fragile environment.

> On economic grounds this is unacceptable, considering the negative effect on growers, especially of organic foods.

> On ethical grounds this is unacceptable, as Nature has sustained us for thousands of years, without irradiation.
