To whom it concerns,

Regulation of GM food should be done by publicly accountable independent experts, not by corporations which profit from the very activities that they "self-regulate".

Labelling: we have the right to know what is in the food we eat. if this legislation goes ahead I will stop buying processed food and any other food that is not transparently sourced.

Thank you for taking my well-founded and informed concerns into consideration.

Yours sincerely,

[REDACTED]
