Hi [REDACTED]

I just wanted to get back to you on this as we are firming on the date of Thursday 13 June for this workshop. I do hope that works with your diaries! I have also attached the current draft version of the workshop plan for your information and feedback.

Thanks and kind regards

Hi [REDACTED] Yes we are still supportive. And the timing looks Ok so far but our schedules tend to fill up so best to bed it down soon. Just to let you know also, we are planning to release our symposium report probably in next month or so. Currently working on media messages etc. So your timing might be good also.

Any further information would be appreciated for our internal discussions.

Cheers,

[REDACTED]

Subject: NBT workshop

Hi [REDACTED]

I hope you are well. I wanted to follow up on our initial discussion about an ILSI NBT workshop. We are still progressing with this idea and hope that the idea still makes sense to you. Currently we are proposing a day workshop (10.00 – 3.00) in Canberra some time between 11-13 June of this year. Would you like me to provide you with any further information?

Thanks and kind regards
