Hi Scott

I'm assuming the NBT review is the same as the "GM Technologies Review" currently listed on the work program – can we get the name changed please to NBT Review so its clearer what it refers to? The only major activity currently foreshadowed under this work for this coming FY is the workshop with jurisdictions, proposed to coincide with the FSA NZ Anniversary event (morning of 17 August).

S22

Re resources – at this stage it will be the cost of hosting a ½ day workshop – I'm waiting on a rough estimate from S22.

Hi Lisa

Could you give an outline of the NBTs review timing, resources, priority for next year thanks?
