

# Food standards development Work Plan

All entries are current as of 13 August 2021

This plan has two parts:

---

- PART 1 – Applications received and proposals prepared from 1 October 2007 onwards
- PART 2 – Applications received and proposals prepared before 1 October 2007

If you have any questions about items on the Work Plan please contact the Standards Management Officer:

Ph: +61 2 6271 2280 email: [standards.management@foodstandards.gov.au](mailto:standards.management@foodstandards.gov.au).

Applications or proposals are placed on the plan in the order they are received and are generally worked on in that order. Sometimes projects that are lower on the Work Plan are completed before projects that have a higher listing. This can happen for a number of reasons, for example differences in complexity, availability of specialist expertise, withdrawal of applications or delays in completion such as requests for further information.

Under the FSANZ Act, applicants can choose to pay fees to bring forward the start of the assessment of their application. The anticipated start date of an unpaid application or proposal cannot be displaced by work on paid applications.

# General notes about the Work Plan

---

**Application or Proposal** – Applications are formal requests to amend the Australia New Zealand Food Standards Code. Proposals are amendments to the Code prepared by FSANZ. Each application or proposal is allocated a sequential identification number in the order of receipt by FSANZ. Applications commence with an 'A' whilst proposals commence with either a 'P' or 'M' (maximum residue limits). Applications rejected after an administrative assessment have a 'P' prefix to indicate they are 'potential' applications. Applications and proposals that have 3 digits relate to those received or prepared before 1 October 2007 while those received or prepared from 1 October 2007 onwards have four 4 digits. **Brief Description** – this provides a general description of the purpose of the application or proposal.

**Brief description** – General description of the purpose of the application or proposal.

**Expected timetable** – Outlines anticipated timeframes for considering the application or proposal, notifications to the Food Ministers' Meeting and gazettals. These timeframes can change at very short notice and depend on many factors such as staff resourcing, the need for further information from the applicant, and delays in the receipt of fees. As each step is completed the actual date is indicated in the 'Date completed' column.

- **early** (1st 10 days of a month) e.g. early April means a date somewhere between 1 and 10 April
- **mid-** (2nd 10 days of a month) e.g. mid-April means a date somewhere between 11 and 20 April
- **late** (remaining days in a month) e.g. late April means a date somewhere between 21 and 30 April

**Consultation opportunities** – Details when consultation may occur and what consultation has already occurred. Anyone can subscribe to FSANZ's Notification Circular which includes notices that are required to be given to the public, submitters and appropriate government agencies, under the FSANZ Act, including calls for submissions. Subscribers applicants, submitters and interested parties are notified by email where at all possible, otherwise a hard copy of the Circular is posted to submitters and interested parties. Calls for public submissions on specific applications and proposals are published on the FSANZ website.

**Under review** – Lists application and proposals under review following a request from ministers responsible for food regulation. These are listed separately as they are not subject to the same procedural and resourcing requirements as applications and proposals undergoing an assessment.

**Finalised projects** – Details about applications and proposals completed, withdrawn, rejected, deleted from the Work Plan or abandoned in the current financial year are included at the end of this Work Plan.

\* **Date completed column** – An asterisk in the date completed column indicates work has been delayed. The reason is indicated in the consultation opportunities column.

**Further information requested** – these applications are awaiting further information from the applicant and therefore the anticipated due date for finalisation cannot be accurately identified while the information is outstanding. Part 1 of the Work Plan

## Notes

Information on applications received and proposals prepared by FSANZ from 1 October 2007 onwards are listed in the following order on the Work Plan:

- General procedure
- High level health claim variation procedure
- Minor procedure
- Major procedure
- Urgent applications or proposals

**Date received** – The date FSANZ received the application. FSANZ has 15 business days to make an administrative (admin) assessment of the application. This assessment determines whether an application meets the requirements set out in Part 3 of the Application Handbook and the procedure by which it should be assessed. If the application is accepted, it is then placed on this Work Plan. This assessment also determines the timetable for consideration of the application.

**Admin assessment completed** – The date that the administrative assessment is completed and the application accepted. After the admin assessment is completed an ‘early bird’ notification to the public occurs. If an application is rejected at the admin assessment stage, the application will appear in the ‘Finalised Projects’ table with an indication of the reasons for rejection. If an application is rejected for not meeting mandatory format and information requirements, this does not prevent the applicant re-lodging the application at a later date in the correct format and with the missing information. In relation to proposals, FSANZ also carries out an ‘admin assessment’, the end result of which, the proposal is formally prepared by FSANZ.

**Clock start and finish Dates** – Under the FSANZ Act FSANZ is required to complete its assessment of applications either within 9 months (general or high level health claim variation procedures) or 3 months (minor procedure) or 12 months (major procedure) – the statutory due date is indicated in brackets and italics with the estimated date for the Board to complete its consideration). For unpaid applications, the clock starts on the date on which the assessment commences. Preparatory work on an application commences approximately 6–8 weeks before the clock start and a reasonable consideration of a majority of actions must be completed, as determined by FSANZ, before the clock is started. For proposals, FSANZ does not have a statutory timeframe to complete its assessment. However, a clock start, as for unpaid applications, is used for reporting and planning purposes.

For paid applications, the clock starts on the date the fees are received by FSANZ.

For applications being assessed under the major procedure only, FSANZ is able to extend the timeframe for up to 6 months if it is not practicable for a decision to be made within the period.

**Fees** – Fees are payable if an application confers an exclusive capturable commercial benefit (ECCB) on an applicant, or if the applicant wishes to expedite consideration of the commencement of the assessment of an application. If an applicant with an ECCB does not pay the fees owing within 20 business days of the notification that the admin assessment has been made, the application is automatically rejected. For more information about how the categories are determined see the [FSANZ Application Handbook](#). If any fees are owed, FSANZ cannot continue to work on the assessment.

**s.95** – Section 95 applications and proposals are considered urgent under Division 4 of the FSANZ Act. Under these provisions, FSANZ is required to assess the variation to the Code within 12 months of the date of effect of the gazetted variation. FSANZ may then either re-affirm its original decision or prepare a proposal for a further variation or replacement variation.

20 August 2021

## General procedure

### Timeframe for completion of assessment: 9 months

This procedure applies to all applications or proposals for the variation of a food regulatory measure, unless they are being considered under either the minor, major or high level health claim variation procedures, or are considered 'urgent' under Division 4 of the **FSANZ Act**

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities	
<b>P1030 –</b> Composition and Labelling of Electrolyte Drinks  <b>Formerly:</b>  Health Claims – Formulated Supplementary Sports Foods & Electrolyte Drinks  (Level 3)	FSANZ	Assessment of compositional and labelling requirements for electrolyte drinks.	28/1/2014	11/2/2014	<b>Commence assessment (Clock start)</b>	<b>Mid-February 2014</b>	18/2/14	Additional round of consultation to be held  Work has recommenced after targeted consultation & in-principle support from key stakeholders. The project scope has been narrowed in response to submitters concerns.

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable		Date completed	Consultation opportunities
<b>A1189</b> - White Mineral Oil as a Processing Aid for dust suppression in grain	IMCD Australia Pty Ltd	To allow for White Mineral Oil to be used for dust suppression in grain handling at a level not greater than 200ppm.	20/8/19	10/9/19	<b>Commence Assessment (Clock start)</b>	<b>Late June 2021</b>	29/06/20	Stop clock applied under s.108 to obtain additional information & request for further information.
					Completion of assessment and preparation of draft food reg measure	End August 2021		
					Call for submissions	Early September – Mid October 2021		
					Board to complete Approval	TBC		
					Notification to the Food Ministers' Meeting	TBC		
Anticipated gazettal if no review requested	TBC							

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable		Date completed	Consultation opportunities
<b>A1190 - 2'-FL in infant formula and other products</b>	Jennewein Biotechnologie	To permit 2'-fucosyllactose (2'-FL), produced by microbial fermentation using genetically modified Escherichia coli (E.coli) strains, in infant formula products, follow-on formula and formulated supplementary foods for young children (FSFYC)	3/9/2019	24/9/2019	<b>Commence Assessment (Clock start)</b>	<b>Mid-October 2019</b>	23/10/19	
					Completion of assessment and preparation of draft food reg measure	Mid April -Mid May 2021	29/06/21	
					Call for submissions	Late-July – late Aug 2021	22/07/21 - 19/8/21	
					Board to complete Approval	Late October 2021		
					Notification to the Food Ministers' Meeting	Early November 2021		
					Anticipated gazettal if no review requested	Mid January 2022		
<b>Paid</b>								

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable		Date completed	Consultation opportunities
<b>A1205</b> – Disodium Adenosine 5' Triphosphate (ATP) as a nutritive substance in Sports Foods	TSI Pharmaceuticals Pty Ltd	To include Disodium Adenosine 5' Triphosphate (Na <sub>2</sub> ATP) as a substance that may be used as nutritive substances in formulated supplementary sports food.	27/05/2020	19/06/20	<b>Commence Assessment (Clock start)</b>	<b>Mid-May 2021</b>	12/05/21	
					Completion of assessment and preparation of draft food reg measure	Mid- September 2021		
					Call for submissions	Mid-September – Late October 2021		
					Board to complete Approval	Early February 2022		
					Notification to the Food Ministers' Meeting	Mid-February 2022		
					Anticipated gazettal if no review requested	Mid-April 2022		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable		Date completed	Consultation opportunities
<b>M1018</b> – Maximum Residue Limits (2020)	FSANZ	To consider varying certain maximum residue limits (MRLs) for residues of specified agricultural and veterinary (agvet) chemicals that may occur in food commodities	24/07/20	7/08/20	<b>Commence Assessment (Clock start)</b>	<b>Early-August July 2020</b>	7/08/2020	
					<b>Completion of assessment and preparation of draft food reg measure</b>	<b>Early November 2020</b>	13/01/2021	
					<b>Call for submissions</b>	<b>Early February - Mid March 2021</b>	2/2/21 – 16/3/21	
					<b>Board to complete Approval</b>	<b>Early June 2021</b>	9/12/2021	
					<b>Notification to the Food Ministers' Meeting</b>	<b>Late June 2021</b>	18/06/2021	
					Anticipated gazettal if no review requested	Late August 2021		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable		Date completed	Consultation opportunities
<b>A1210</b> - Maltogenic alpha amylase enzyme from GM <i>Saccharomyces cerevisiae</i>  <b>Paid</b>	Lellmand	To permit a new source microorganism, being a genetically modified <i>Saccharomyces cerevisiae</i> , for the permitted enzyme, maltogenic alpha amylase.	21/8/20	11/09/20	<b>Commence Assessment (Clock start)</b>	<b>Mid-September 2020</b>	15/09/20	
					<b>Completion of assessment and preparation of draft food reg measure</b>	<b>Late-January 2021</b>	20/01/2021	
					<b>Call for submissions</b>	<b>Early February – mid-March 2021</b>	27/01/2021-10/03/2021	
					<b>Board to complete Approval</b>	<b>Mid-June 2021</b>	9/06/2021	
					<b>Notification to the Food Ministers' Meeting</b>	<b>Late June 2021</b>	18/06/21	
					Anticipated gazettal if no review requested	Late August 2021		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
A1211 - Maltogenic alpha amylase enzyme from GM <i>Bacillus licheniformis</i>	Danisco New Zealand Ltd	To permit a new source microorganism, being a genetically modified <i>Bacillus licheniformis</i> , for the permitted enzyme, maltogenic alpha amylase.	26/08/2020	15/09/2020	<b>Commence Assessment (Clock start)</b>	Mid-May 2021	13/05/2021
					<b>Completion of assessment and preparation of draft food reg measure</b>	Mid-Jul 2021	15/7/2021
					<b>Call for submissions</b>	Late July – early September 2021	
					Board to complete Approval	Early Dec 2021	
					Notification to the Food Ministers' Meeting	Mid-Dec 2021	
					Anticipated gazettal if no review requested	Early Mar 2021	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1214 –</b> Nicotinamide riboside chloride as Vitamin B3 in FSMP  <b>Paid</b>	ChromaDex Inc.	To amend the Food Standards Code to permit the use of nicotinamide riboside chloride as a permitted form of Vitamin B3 in food for special medical purposes (FSMPs).	09/10/2020	2/11/2020	<b>Commence Assessment (Clock start)</b>	10/11/2020	
						<b>Early November 2020</b>	
					<b>Completion of assessment and preparation of draft food reg measure</b>	25/02/2021	<b>February 2021</b>
					<b>Call for submissions</b>	22/04/21	<b>Late April - Mid-May 2021</b>
					Board to complete Approval	04/08/21	Early August 2021
					Notification to the Food Ministers' Meeting	12/08/21	Mid-August 2021
Anticipated gazettal if no review requested		Late-October 2021					

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1215 –</b> Cetylpyridinium chloride as washing processing aids  <b>Paid</b>	Safe Foods Corporation.	To request the addition of Cetylpyridinium chloride (CPC) to Schedule 18 of the Australia New Zealand Food Standards Code	13/10/2020	4/11/2020	<p><b>Commence Assessment (Clock start)</b></p> <p>Completion of assessment and preparation of draft food reg measure</p> <p>Call for submissions</p> <p>Board to complete Approval</p> <p>Notification to the Food Ministers' Meeting</p> <p>Anticipated gazettal if no review requested</p>	11/11/2020	Stop clock applied under s.108 for additional information requested.
					<p>Mid November 2020</p> <p>Late September 2021</p> <p>Mid October –Early November 2021</p> <p>Early February 2022</p> <p>Late February 2022</p> <p>Early May 2022</p>		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1212</b> – Beta-fructofuranosidase enzyme from <i>Aspergillus fijiensis</i>	Meiji Food Materia Co., Ltd.	To permit a new source microorganism, <i>Aspergillus Fijiensis</i> , being an updated name of <i>Aspergillus niger</i> , for the permitted enzyme beta-fructofuranosidase.	10/09/2020	29/09/2020	Commence Assessment (Clock start)	Early August 2021	2/08/2021
					Completion of assessment and preparation of draft food reg measure	Late Oct 2021	
					Call for submissions	Early Nov 21–Mid Dec 22	
					Board to complete Approval	Late April 2022	
					Notification to the Food Ministers' Meeting	Early May 2022	
					Anticipated gazettal if no review requested	Mid July 2022	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1218</b> - β-Galactosidase from Bacillus subtilis (Enzyme)	Danisco New Zealand Ltd	To seek approval for a “β-Galactosidase (EC 3.2.1.23)” enzyme derived from a genetically modified organism for use as processing aid in dairy food applications.	10/11/2020	30/11/2020	<p><b>Commence Assessment (Clock start)</b></p> <p>January 2021</p>	6/01/2021	
<b>Paid</b>					<p>Completion of assessment and preparation of draft food reg measure</p> <p>April 2021</p>	23/04/21	
					<p>Call for submissions</p> <p>Early May– Mid June 2021</p>	29/04/21	
					<p>Board to complete Approval</p> <p>Early Aug 2021</p>	04/08/21	
					<p>Notification to the Food Ministers’ Meeting</p> <p>Mid Aug 2021</p>	12/08/21	
					<p>Anticipated gazettal if no review requested</p> <p>Late Oct 2021</p>		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1219</b> – Alpha-amylase from GM <i>Bacillus licheniformis</i> as PA (Enzyme)	Danisco New Zealand Limited, subsidiary of DuPont	To permit the use of Alpha-amylase from GM <i>Bacillus licheniformis</i> as an enzyme processing aid for use in brewed beverages, potable alcohol production and starch processing.	30/11/2020	16/12/2020	Commence Assessment (Clock start)	Mid Dec 2021	
					Completion of assessment and preparation of draft food reg measure	Mid May 2022	
					Call for submissions	Mid May – Late Jun 2022	
					Board to complete Approval	Mid Sept 2022	
					Notification to the Food Ministers' Meeting	Late Sept 2022	
					Anticipated gazettal if no review requested	Mid Dec 2022	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1220</b> – Beta-amylase from <i>Bacillus licheniformis</i>	Novozymes Australia Pty Ltd	To permit the use of Beta-amylase from a genetically modified strain of <i>Bacillus licheniformis</i> in starch processing for maltose syrup production.	03/12/2020	16/12/2020	Commence Assessment (Clock start)	Late Dec 2021	
					Completion of assessment and preparation of draft food reg measure	Mid May 2022	
					Call for submissions	Early Jun – Mid Jul 2022	
					Board to complete Approval	Mid Sep 2022	
					Notification to the Food Ministers' Meeting	Late Sept 2022	
					Anticipated gazettal if no review requested	Mid-Dec 2022	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
A1221 – Phospholipase A1 from <i>Aspergillus niger</i>	Novozymes Australia Pty Ltd	To permit the use of phospholipase A1 from a genetically modified strain of <i>Aspergillus niger</i> as a processing aid during degumming of vegetable oils and fats.	03/12/2020	16/12/2020	Commence Assessment (Clock start)	Late Dec 2021	
					Completion of assessment and preparation of draft food reg measure	Mid May 2022	
					Call for submissions	Early Jun – Mid July 2022	
					Board to complete Approval	Mid Sep 2022	
					Notification to the Food Ministers' Meeting	Late Sep 2022	
					Anticipated gazettal if no review requested	Mid – December 2022	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1222</b> - Steviol glycosides from <i>Yarrowia lipolytica</i>	Joint submission by Cargill, Incorporated and DSM Food Specialties	To permit the use of a steviol glycoside mixture, Rebaudioside MD, that is produced by fermentation from a genetically modified <i>Yarrowia lipolytica</i> ( <i>Y. lipolytica</i> ), expressing steviol glycoside biosynthesis pathway genes, as an intense sweetener.	21/12/2020	15/01/2021	<p><b>Commence Assessment (Clock start)</b></p> <p>Completion of assessment and preparation of draft food reg measure</p> <p>Call for submissions</p> <p>Board to complete Approval</p> <p>Notification to the Food Ministers' Meeting</p> <p>Anticipated gazettal if no review requested</p>	<p>29/01/21</p> <p>9/02/2021</p> <p>11/06/2021 – 22/7/2021</p>	
<b>Paid</b>					<p>Mid February 2021</p> <p>Late May 2021</p> <p>Mid June – Late July 2021</p> <p>Late October 2021</p> <p>Early November 2021</p> <p>Mid January 2022</p>		

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1223</b> - Glutaminase from <i>Aspergillus niger</i> (enzyme)	Shin Nihon Chemical Co., Ltd	To permit the enzyme glutaminase sourced from <i>Aspergillus niger</i> as a processing aid for use in the production of certain seasoning ingredients	5/01/2021	28/01/2021	Commence Assessment (Clock start)	Late Jan 2022	
					Completion of assessment and preparation of draft food reg measure	Late May 2022	
					Call for submissions	Early June-mid July 2022	
					Board to complete Approval	Late Oct 2022	
					Notification to the Food Ministers' Meeting	Early Nov 2022	
					Anticipated gazettal if no review requested	Late Jan 2023	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1224</b> - Glucose oxidase from <i>Penicillium rubens</i> as processing aid	Shin Nihon Chemical Co., Ltd	To permit the enzyme glucose oxidase sourced from <i>Penicillium rubens</i> as a processing aid for use in the production of various foods and beverages.	12/01/2021	3/02/2021	Commence Assessment (Clock start)	Early Feb 2022	
					Completion of assessment and preparation of draft food reg measure	Early June 2022	
					Call for submissions	Mid June – Late July 2022	
					Board to complete Approval	Late Oct 2022	
					Notification to the Food Ministers' Meeting	Early Nov 2022	
					Anticipated gazettal if no review requested	Late Jan 2023	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1226</b> – Food derived from insect-protected corn line MON95379	Bayer CropScience Pty Ltd	To seek approval for the sale and use of food derived from genetically modified corn (maize) line MON95379. This line has been modified for protection from lepidopteran insect pests.	12/04/21	04/05/2021	Commence Assessment (Clock start)	Early-June 2021	02/06/2021
<b>Paid</b>					Completion of assessment and preparation of draft food reg measure	Early September 2021	
					Call for submissions	Mid-September – Late October 2021	
					Board to complete Approval	Early - February 2022	
					Notification to the Food Ministers' Meeting	Mid - Febraury 2022	
					Anticipated gazettal if no review requested	Mid – April 2022	

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
<b>A1227 -</b> Arabinofuranosidase enzyme from GM Trichoderma reesei	Novozymes Australia Pty Ltd	To permit a new source microorganism, being a genetically modified Trichoderma reesei, for the already permitted enzyme arabinofuranosidase.	19/05/2021	9/6/2021	<b>Commence Assessment (Clock start)</b>	Mid-June 2022	
					Completion of assessment & Preparation of draft food regulatory measure	Early Oct 2022	
					1 <sup>st</sup> Call for submissions	Mid Oct – Late Nov 2022	
					Board to complete Approval	Mid – March 2023	
					Notification to the Food Ministers' Meeting	Late March 2023	
					Anticipated gazettal if no review requested	Early June 2023

## High level health claim variation procedure

Timeframe for completion of assessment: 9 months

This procedure applies to all applications or proposals seeking to make a change to the list of high level health claims as permitted in Standard 1.2.7 or to add a general level health claim to Schedule 3 of Standard 1.2.7

Note: The FSANZ Act provides that in relation to applications, application dossiers, reports or other material for high level health claim variations are not disclosed, unless the applicant elects to allow for public submissions. For this reason information relating to these applications will not be released to the public.

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
-------------------------	--------------------	-------------------	----------	------------------------	--------------------	----------------	----------------------------

## Minor procedure

Timeframe for completion of assessment: 3 months

This procedure applies to applications or proposals for the variation of a food regulatory measure that, if made, would not directly or indirectly impose, vary or remove an obligation on any person; or create, vary or remove a right of any person; or otherwise alter the legal effect of the measure

Application or proposal	Applicant or FSANZ	Brief description	Received	Admin assess completed	Expected timetable	Date completed	Consultation opportunities
-------------------------	--------------------	-------------------	----------	------------------------	--------------------	----------------	----------------------------

---

## Major procedure

### Timeframe for completion of assessment: 12 months

This procedure applies to applications or proposals for the development of a new food regulatory measure and an application or proposal for the variation of a food regulatory measure that involves such scientific or technical complexity that it is necessary to adopt this procedure in considering it; or involves such a significant change to the scope of the food regulatory measure that it is necessary to adopt this procedure in considering it.

For applications, this timeframe may be extended by up to 6 months if it is not practicable for completion to occur within 12 months. Extensions and the reasons for the extension are included in the FSANZ Annual Report.

					Anticipated gazettal if no review requested	Mid March 2022	

## Urgent applications or proposals

These applications and proposals are considered urgent under Division 4 of the **FSANZ Act**. Under these provisions, FSANZ is required to assess the variation to the Code within 12 months of the date of effect of the gazetted variation. FSANZ may then either re-affirm its original decision or prepare a proposal for a further variation or replacement variation.

# Part 2 of the Work Plan

---

## Notes

Information on applications received and proposals prepared by FSANZ before 1 October 2007 are in the following order:

- **Group 1**
- **Group 2**
- **Applications and proposals being reviewed**

**Date received** – This is the date on which FSANZ received an application, or the date on which a potential proposal is ‘scoped’ by FSANZ in anticipation of proceeding.

**Start and finish dates** – For applications, FSANZ is required under the FSANZ Act to complete its assessment of applications within 12 months. For unpaid applications, the 12-month clock starts on the date an initial assessment is made. FSANZ is able to extend the timeframe for up to 6 months, if it is not practicable for a decision to be made within the period.

For proposals, FSANZ does not have a statutory timeframe to complete its assessment. However, a clock start, as for unpaid applications, has been used for planning purposes.

An estimated time for assessment to commence (based on calendar year quarters) is indicated. Once the clock starts, this date is amended to provide the actual start and final due dates.

**Further info** – These applications are awaiting further information from the applicant and therefore the anticipated due date for finalisation cannot be accurately identified while the information is outstanding. Resources that may become available as a result of requests for further information will generally be diverted to work on other projects.

**Work Plan category** – all applications and proposals are placed in a six-tier scale based on an estimate of the amount of work that will be required to complete that application or proposal. This estimate is used to determine FSANZ’s workload for the purposes of the Work Plan.

**Stage completed** – A tick indicates completion of the initial or draft assessment. Once a final assessment is completed, the application or proposal is moved to the finalised projects table. If a review is requested by the Food Ministers’ Meeting, the project is moved to the Review table.

**s.36 (of the FSANZ Act as it existed prior to 1 October 2007)** – The assessment process for these applications or proposals has been shortened as it was considered that omitting one round of public consultation would not have a significant adverse effect on the interests of anyone OR the application or proposal raised issues of only minor significance or complexity. A related process can be used if FSANZ considers that the part of the assessment would be a duplication of work already done, or a process already gone through, by another government agency in Australia or New Zealand.

## Group 1

Applications and proposals received prior to 1 October 2007 having health/safety considerations and/or consumer interest being progressed as a priority.

Application or proposal	Applicant or FSANZ	Date received	Brief description	Start (S) & finish (F) dates	Work Plan category	Stage completed		Expected timetable	Consultation opportunities

## Finalised projects awaiting Food Ministers' Meeting response

Applications and proposals finalised from 1 July 2020–30 June 2021 (awaiting Food Ministers' Meeting response)

Application or proposal	Applicant or FSANZ	Brief description	Final consideration by FSANZ Board	Outcome
<b>A1218</b> - $\beta$ -Galactosidase from <i>Bacillus subtilis</i> (Enzyme)	Danisco New Zealand Ltd	To seek approval for a " $\beta$ -Galactosidase (EC 3.2.1.23)" enzyme derived from a genetically modified organism for use as processing aid in dairy food applications.	12/08/2021	<b>Approved</b>
<b>A1214</b> – Nicotinamide riboside chloride as Vitamin B3 in FSMP	ChromaDex Inc.	To amend the Food Standards Code to permit the use of nicotinamide riboside chloride as a permitted form of Vitamin B3 in food for special medical purposes (FSMPs).	12/08/2021	<b>Approved</b>
<b>A1210</b> - Maltogenic alpha amylase enzyme from GM <i>Saccharomyces cerevisiae</i>	Lellmand	To permit a new source microorganism, being a genetically modified <i>Saccharomyces cerevisiae</i> , for the permitted enzyme, maltogenic alpha amylase.	9/6/2021	<b>Approved</b>
<b>M1018</b> – Maximum Residue Limits (2020)	FSANZ	To consider varying certain maximum residue limits (MRLs) for residues of specified agricultural and veterinary (agvet) chemicals that may occur in food commodities	9/6/2021	<b>Approved</b>

## Finalised projects

Applications and proposals finalised from 1 July 2021 – 30 June 2022

Application or proposal	Applicant or FSANZ	Brief description	Final consideration by FSANZ Board	Outcome
<b>A1216</b> - Canola MON 94100	Bayer Crop Science Proprietary Limited	To seek approval for the sale and use of food derived from herbicide-tolerant canola line MON94100, genetically modified to provide tolerance to dicamba.	28/04/21	Gazetted
<b>A1207</b> - Rebaudioside M as Steviol Glycoside	Amyris Inc.	To permit the use of Steviol glycosides Rebaudioside M that is produced by fermentation from <i>Saccaromyces cerevisiae</i> , expressing steviol glycoside biosynthesis pathway genes, as a general purpose sweetening agent.	28/04/21	<b>Gazetted</b>
<b>A1206</b> - Subtilisin from GM <i>Bacillus licheniformis</i> as a PA (enzyme)	Novzymes	To permit the use of subtilisin from <i>Bacillus licheniformis</i> containing the subtilisin gene from <i>Pyrococcus furiosus</i>	28/04/21	<b>Gazetted</b>
<b>A1193</b> - Irradiation as a phytosanitary measure for all fruit and vegetables	Queensland Department of Agriculture and Fisheries	To extend the option of phytosanitary irradiation to all types of fresh fruits and vegetables	28/04/21	<b>Gazetted</b>
