Subject: Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.
Follow Up Flag: Follow up
Flag Status: Blue

I am writing to sat that I am totally in favour of safely produced, natural raw milk. Our family has been drinking raw milk for over a year now with great health benefits.

We always source our milk from Organic Biodynamic dairies where we know that the cows are eating good food and that processing requirements are met.

I made the decision to use raw milk after a great deal of research and would like to see more raw milk available.

Yours sincerely
