RE: Proposal P1007: Primary Production and Processing Requirements for Raw Milk Products

I am in favour of safely produced, natural raw milk. Please allow for and encourage safe raw milk to be available to all Australians as it currently is in so many other far-thinking countries in the world. Today more than ever, as our food becomes less and less nutritious, we need to have access to a natural raw milk for the additional health benefits it provides.

Regards,

A handwritten signature in cursive script, appearing to read 'Nancy', is shown within a light grey rectangular box.
