**Subject:** Submission

Please find my submission for Project:

Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

As a health conscious mother and also as the President of Future Families Inc I am in support of Raw milk (and raw milk products) being readily available in Australia. I have done much research on this matter and believe these products to not only be safe but to be of huge benefit to my family's health and the overall health of our society. If these products are available it would also encourage more farmers to adopt safe, and high quality practices in producing these products thus providing greater benefit to farmers etc.

Kind regards  
Heidi
