I hereby request the availability of raw milk and raw milk products as a consumer. My research of the work of Dr Weston Price, shows that pasteurisation of milk denatures the protein, and alters the milk in many ways making it a less nutritious, harder to digest food that I do avoid for myself and my family as we are unable to tolerate it. Furthermore raw milk and products TASTE far superior to pasteurised. It would make a huge difference to our quality of life if we would be able to purchase raw dairy products, which we would do very regularly  
Thank you

Lara Rubinstein
