Teleconference: Thursday 30 May 2019, 11:00AM

Chair: s 22 [REDACTED] FSANZ

Notifying Agency: NSW DPI

Confirmed Incident Objective:

- Information sharing
- Raise awareness of quarantine and flock control measures.

Summary of actions:

Actions	Responsibility
<i>Continue discussions on the potential need for further risk profiling/risk assessment work:</i> <ul style="list-style-type: none">• An update to the draft emergency risk profile was not considered necessary at this stage; however, the Notifying Agency suggested a potential need to plan for future risk assessment activity given the current PPP Standard's (Std 4.2.5) risk management measures and risk assessment are based on SE not being present in Australian layer flocks. If undertaken, this process would sit outside of the incident response activity.	<u>Food Regulatory System</u>
<i>Need for consultation with additional stakeholders:</i> <ul style="list-style-type: none">• NSW DPI Program Coordinator for SE to provide an update at the next teleconference on transitioning current SE emergency response to routine BAU management.	<u>NSW DPI Program Coordinator for SE</u>
