

April 26, 2013

General Manager
FOOD STANDARDS AUSTRALIA NEW ZEALAND

Dear Sir,

Application A1075 -Quillaja Extract as a Food Additive (Emulsifier)

We are writing in response to your further information required dated April 22, 2013.

We are comfortable to reduce the proposed limit in Formulated beverages from 50 ppm to 40 ppm. Please find the revised table below.

Food category name	Food category code	Proposed limit (ppm)	Comments
Carbonated, mineralised & soda waters	14.1.1.2	40	
Fruit and vegetable juice products	14.1.2.2	40	
Water based flavoured drinks	14.1.3		Retain all categories
a) Cola type soft drinks		40	
b) Cordials - base powders and syrups		40	
c) Sports drinks - bases and powders		40	
d) Fruit flavoured soft drinks		40	
e) Lemonades		40	
Formulated beverages	14.1.4	40	
Coffee (or substitute), tea, herbal infusion & similar products	14.1.5	30	Include only flavoured coffee and tea
Alcoholic beverages (including no & low alcohol)	14.2		
Beer and related products	14.2.1	40	
Spirits and liqueurs	14.2.5	40	
Alcoholic beverages not included in item 14.2	14.3	40	Include blend of a cider with other drinks

Thank you so much for your kindly review and consideration. Please do not hesitate to contact me if you have any other questions.

Sincerely yours,

Technical Service Manager
