Submission

'A1094 Food derived from Herbicide-tolerant Cotton Line DAS-81910-7'

I do not want permission given for any gm crop resistant to 2,4-D. Particularly if it is a crop that may be eaten.

If permission is given I believe that i have the right to know if this resistant crop is in any product I may purchase.

If approval is going to be given the least I deserve is the right to choose not to purchase any product containing the crop resistant to 2,3-D. To be able to do this I need know it is in the product.
