Submission Text: I ask that FSANZ decline the approval of application A1139 -

Food derived from Potato Lines E56, F10, J3, W8, X17 & Y9. I  
strongly object to FSANZ approving application A1139 -  
Food derived from Potato Lines E56, F10, J3, W8, X17 & Y9. I  
ask that FSANZ decline the application There is no  
comprehensive data showing evidence of unintended  
effects of the transgenic potato lines. It makes it mandatory  
for FSANZ to decline the approval. It is necessary for FSANZ  
to require whole genome sequencing to identify off-target  
mutations and also essential to ascertain the effects of  
unintended changes on global patterns of gene function.  
FSANZ must require sequencing using molecular profiling  
analyses or "omics"-
