Submission Text: I have use for and would appreciate the speedy approval of Nagardo A1180 - Natural Glycolipids as a preservative in non-alcoholic beverages particularly coffee based beverages. I see this is going to be approved by early to mid February but due to my commercial requirements and the compatibility with preservation application of Nagardo could you please tell me how I can assist in having this product approved for fast tracking. I have already run successful commercial trials

which I can discuss with interested FSANZ parties with
required NDA's in place. Regards, [REDACTED].
