Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables

To whom it may concern.

Re: Submission on A1193 Irradiation of all fresh fruit and vegetables.

This proposal would constitute a major reduction in the nutritional value and safety of the human food supply. The nutritional and safety assessment process lacks scientific rigour, relying heavily on unpublished – non-peer-reviewed research submitted by the applicant.

Public health and safety has not been adequately demonstrated by the scientific data available and therefore cannot be guaranteed.

So in saying that it's obvious the Government is onboard with the depopulation agenda suggested by UN Agenda 2030 and the Great Reset. My only hope is that enough Australians awaken to the evil this Government, especially the Socialist Labor Queensland Government, is perpetrating on Australians. A Government also responsible for the death of babies during the gross over reaction to a seasonal flu. This is how much they value human lives.

Sincerley hope you reject this submission.

Christine J Fabri
