> Subject: Submission on A1193 irradiation of all fresh fruit and
> vegetables

> I write to oppose the current plans of the Qld Gov to mandate irradiation of all fresh fruit and vegetables.

> Research confirms Irradiation forms volatile toxic chemicals such as benzene and toluene, which can cause cancer and birth defects.

> Further, experiments in lab animals fed irradiated food, caused stunted growth.

> To impose such mandated laws on these foods, may have disastrous health effects on this generation, and the generations to come.

> Thank you for your consideration to this submission.

> Warm regards,
