Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables

Good afternoon

I am opposed to the irradiation of fresh fruit & vegetables. Please listen to people who have the time to present their research. You may set a precedent for my state to follow suit. I wish to have truly fresh fruit & vegetables. There must be a problem with irradiation to try and rush this through and not allow the initial date of April for people to have time to properly present their submissions.
