Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables

To Food Standards Australia,

I read with dismay the Queensland Government's application A1193 calling for ALL Fresh Fruit and Vegetables to be irradiated.

I do not want my fresh fruits and vegetables to be irradiated by any means.

How will this apply to Organic Fresh Fruits and vegetables. How can they be considered organic if they have been blasted with Gamma or X-Rays.

This is totally unnecessary and I am very displeased that this application is being rushed through with very little public input that I can see.

Please reject application A1193.

Yours sincerely
