Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables'

You are Not God so stop trying to be.

Mother nature knows best, not you.

PLEASE STOP MESSING WITH OUR FOOD.

Food is to fuel for our bodies. Putting in food that has been messed with so that it contains less nutrients or altered so our bodies cant easily absorb is creating a huge health problem.

it is bad enough what is done to the soil that creates tasteless and nutrient void food let alone adding another process to digress further from nature.

Stop your plans of messing with our food and focus on better logistics / transportation of getting high quality food to have a healthier Australians.
