**Subject:** Submission on A1193 Irradiation of all fresh fruit and vegetables.

To the commission on Irradiation of all fruit and vegetables,  
I do not want my fruit and vegetable radiated, I purposely buy organic fruit and vegetables because I do not wish my family and myself to ingest chemicals, pesticides and herbicides.  
You have no right to do this to our food and our bodies. Radiation alters the chemistry of the human body and you have no right to impose this on anyone, no matter what the scientist say, it is NOT safe.  
This country already has one of the highest rates of allergies in the modern world. In France, less than 1% of the population has gluten intolerance or are coeliac because as a country and Government, they respect their soil, food and produce.  
As a Government, you have been elected to protect the people you serve. If you vote for this in, you are responsible for the continuing sickness of the people that you are meant to serve.  
We as the people, have the right to purchase fruit and vegetables free from irradiation.

[REDACTED]

Kind Regards,

[REDACTED]
