To whom it may concern

'Submission on A1193 Irradiation of all fresh fruit and vegetables'.

Please please do not irradiate our fruit and vegetables. I am a nutrition student and know who importance of vegetables and fruit to our nutritional needs. Our fruit and vegetables are already sprayed with glyphosate which is terribly detrimental to human health.

I plead with you not to go ahead with planned irradiation of fruit and vegetables. Let's fix the soils instead which is the foundation to human health and the planet's health.

Regards
