Subject: A1193 Irradiation of all fruits and vegetables

To whom it may concern,

My family and I support the submission prepared by the food irradiation watch.

As a consumer, I will refuse to buy fruits and vegetables that have been subject to irradiation. And as a microbiologist who is promoting gut health and helping people restore their gut Microbiome, I would recommend to everyone to avoid irradiated fresh produce. Nobody knows the effect of radiation on the gut Microbiome and its long-term safety on our health.

I wish one day scientists stop tempering with our foods.

Kind regards,

[REDACTED]
