Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables

To the submission committee.

I do not agree with the irradiation of all fresh fruit and vegetables in particular those that are Australian grown.

Any imported fruit and vegetables from any place that are irradiated must be labelled as such on the shelves where they are being sold to the public.

Was wondering what else our government was trying to do under cover of this covid pandemic.

Sincerely

[REDACTED]
