31 January 2022

Tēnā koe,

Application A1232–Food derived from drought-tolerant wheat line IND-00412-7

Thank you for the opportunity to comment on this application.

New Zealand Food Safety (NZFS) agrees with FSANZ's safety and risk assessment that concluded that no potential public health and safety concerns were identified in the assessment of drought-tolerant and herbicide-tolerant wheat line IND-00412-7, and that FSANZ considers that food derived from IND-00412-7 is as safe for human consumption as food derived from non-GM wheat varieties.

NZFS supports the approval to permit the use or sale of food derived from this wheat line in accordance with the Food Standards Code.

Nāku noa, nā
