Application A1253 – Bovine Lactoferrin in Infant Formula Products

10th November 2022

The Dairy Companies Association of New Zealand (DCANZ) appreciates the opportunity to make a submission on *Application A1253 – Bovine Lactoferrin in Infant Formula Products* in light of its relevance and importance to our member companies. DCANZ member companies collectively account for more than 98% of the milk processed in New Zealand and a similarly high portion of New Zealand’s dairy exports.

DCANZ is aligned with, and supports, the Infant Nutrition Council (INC) submission concerning *Application A1253 – Bovine Lactoferrin in Infant Formula Products*.
