Subject: Hemp Products

Categories: Blue Category

I see no reason why Hemp Products, if proven safe, cannot be used for Human consumption or use. Natural Hemp uses very little water, would need to be monitored strongly as it could become a weed, can provide cheap paper, no need for forests to be cut down and the seeds I understand are very beneficial. Clothing and shoes can be made from Hemp. Hessian bags have been made for years. I wish to stress, that I do not use Hemp in any form whatsoever to gain any "happy" side effects. I neither drink nor smoke.
