Subject: Dogs in cafes

Categories: [REDACTED]

When will Queensland come into the 21 Century when other civilised cities and countries allow companion pets into cafes. Many on the Sunshine Coast have been asking for the right to take our dogs to outdoor cafes where the café owner is willing to allow dogs, but under the law we cannot. Given the ageing population and the number of people with companion pets, surely cafes are losing business due to this archaic law. Let the café owner decide.

Sincerely
Helen Maddern
