- 12. Submission Text:** I agree with proposal P1035! Life as a registered coeliac is hard enough without also having to cope with hidden complications! Why shouldn't we be able to have a social drink like everyone else? We cope with less choices as it is, but to take another choice away from us entirely is getting pretty heavy handed. More and more people are being diagnosed with coeliac disease all the time. It is NOT a choice for us, it is a matter of life itself, plus quality of life. The ingesting of unidentified gluten also puts larger pressure on the health system which has to cope with our ill health which creates further health complications. All because of continued ingestion of unidentified gluten. We just CAN'T have gluten in ANYTHING we eat or drink!
