Dear Sir / Madam

Submission to proposal P1053: Food Safety Management Tools

Thank you for the opportunity to provide a submission for proposal P1053, Food Safety Management Tools.

While this submission does not represent a Queensland Government position, Officers from Queensland Health support proposal P1053 to amend the Australia New Zealand Food Standards Code to mandate the use of the food safety management tools as a nationally consistent process for enhanced regulatory measures. This may address the unique risks associated with food service and related food retail business sectors and supports the focus of *Australia's Foodborne Illness Reduction Strategy 2018-2021+* to reduce foodborne illness in Australia.

We look forward to further discussion on strategies to ensure a successful implementation process.

Should you require further information in relation to this matter, please contact Food Safety Standards and Regulation, Health Protection Branch, on [REDACTED]
