To whom it concerns,

All GM foods should be labelled as GM, and be traceable. This will allow farmers, food producers, retailers, and shoppers like myself to avoid them. Like most people I prefer natural, unadulterated whole foods.

The proposal to deregulate new and emerging GM techniques and their food products, which pose new and unassessed risks, is completely unacceptable.

Thank you for taking my informed concerns into consideration.

Yours sincerely,
[REDACTED]
