**Re: Second Assessment Report for Proposal P1007-Primary Production & Processing Requirements for Raw Milk Products.**

May I add my voice to the chorus of people and producers interested in the future of artisan cheesemaking in Australia, who are urging the Government to reconsider this matter and allow the controlled and inspected production of raw milk cheeses in this country. To be at such a disadvantage against European and New Zealand producers, because of a self-imposed Australian ban on raw milk cheesemaking, speaks of entrenched bias and closed minds.
